Alexander Brown

Aurora, IL 60504 • 630-870-5787 • balexander310@yahoo.com
Portfolio: https://my-website-kappa-flame.vercel.app
LinkedIn: www.linkedin.com/in/alexander-brown-543337216

Front-End Developer specializing in React and modern JavaScript, with hands-on experience building authenticated CRUD applications, managing global state, and deploying production-ready web apps. Strong UI/UX focus and passion for clean, maintainable code.

EDUCATION

Aurora University, Aurora, IL — Graduated December 2024
Bachelor of Computer Science
GPA 3.3

Waubonsee Community College, Sugar Grove, IL — Graduated December 2019
Associates of Applied Science/Computer Science
GPA 3.5

SKILLS

Frontend: React, JavaScript, HTML, CSS, SCSS

Backend: Node.js, Express, Supabase, Firebase

Databases: PostgreSQL, MongoDB, MySQL, NoSQL

Tools: Git, GitHub, Vercel, Postman, Figma, Excel

Concepts: Auth, Protected Routes, REST APIs, CI/CD, Responsive UI

Projects (GitHub: https://github.com/AxAnder0095)

Self-Journaling Application— MongoDB, React.js, Express.js, Node.js, Auth0
A full-stack MERN application using Auth0 for user login and authentication. Users can upload their own entries and see them displayed on the dashboard.
Highlights:
- Auth0 for user authentication.
- MongoDB stores tokens to verify user to display their own content to them.

Demo: https://www.youtube.com/watch?v=cROqki9jCyw
Repo: https://github.com/AxAnder0095/MERN-Basic

Weather Forecast Web Application — React, Node.js, OpenWeather API, Vercel, Render
A full-stack weather forecasting web application that retrieves real-time weather data using U.S. zip codes.
Highlights:
- Built responsive React UI and Node.js backend deployed on Render.
- Integrated OpenWeather API with zip code validation and error handling.
- Deployed frontend using Vercel with secure cross-origin communication.

Website: https://weather-application-indol-tau.vercel.app

Repo: https://github.com/AxAnder0095/Weather-Application

Authenticated Todo CRUD Application — React, Supabase, Context API, Vercel
A secure, full-stack task management web application with authentication, protected routes, and real-time database integration.
Highlights:
- Built full CRUD functionality with Supabase PostgreSQL and persistent authentication.
- Implemented protected routes, global auth state (Context API), and client-side form validation.
- Deployed production-ready application using Vercel CI/CD.

Repo: https://github.com/AxAnder0095/SupabaseCRUDAuth

Expense Tracker: A full-stack finance tracker that allows users to log and visualize their expenses in real-time. — React, Firebase, Recharts
- Technologies: React.js, Recharts (for data visualization), Firebase (for authentication and real-time database storage) and Figma (for initial mockup design)
- Key Features: real time data visualization.
- Challenges: State management rework near the end of development because of an uncaught infinite loop caused by useEffect.
- Repo: https://github.com/AxAnder0095/expenseapp

Animations Website: A responsive website that highlights custom-built CSS animations for UI elements and effects. — React, SASS
- Technologies: HTML, CSS, SASS
- Key Features: Interactive demos of hover effects, transitions, keyframe animations, and animated components.
- Highlights: Focused on clean, reusable CSS code and modular design; great for experimenting with front-end motion design principles.
- Repo: https://github.com/AxAnder0095/animations

EMPLOYMENT

Mih Construction Inc — May-2025-Present
Project Assistant
- Confirm materials are ordered and delivered to right address
- Organize projects for homes to be repaired
